November 23, 2026

To Our Valued Suppliers and Service Providers:

As we approach the new year, Teledyne Technologies Incorporated thanks you for your essential role in our success and wishes you a safe and prosperous holiday season.

Teledyne remains committed to the highest standards of integrity and compliance, and we expect the same from our suppliers and service providers. We remind you that our policies require our employees to obtain internal approval for exchanges of gifts or gratuities with customers and service providers except for seasonal or promotional items of modest value. Meals and entertainment must be reasonable, tied to legitimate business purposes, and never create the appearance of favoritism or conflict of interest. The exchange of cash and cash equivalents such as gift cards is prohibited.

All suppliers and service providers are expected to follow Teledyne's Code of Conduct for Suppliers and Service Providers and the terms of all agreements with Teledyne. This includes strict adherence to human rights and labor standards, such as prohibitions on forced labor, child labor, slavery and human trafficking. It also means maintaining a safe and respectful workplace. Suppliers and service providers must comply with all applicable anti-corruption and competition laws, avoid improper payments or facilitation payments, and uphold ethical and fair business practices. Trade compliance and sanctions requirements must be met, including denied party screening, proper licensing for exports of hardware and technical data, and payment of required duties and tariffs. Vigilance against counterfeit parts is essential to maintain product quality and safety. Robust cybersecurity and data protection measures are required to prevent fraud and protect sensitive information, including lawful and responsible use of AI. No confidential information relating to Teledyne may be accessible to an AI tool that trains on data, and your company remains responsible for the use of or reliance on any outputs.

Looking ahead to 2027, we may experience more advances in AI, increased cybersecurity threats and mandates, continuing fluctuations in global sanctions and tariffs, expanded human rights due diligence throughout the supply chain, and continued focus on anti-corruption compliance. Please review your policies and controls to ensure full compliance.

Should you have questions regarding Teledyne's ethical business conduct requirements, you may contact:

Melanie S. Cibik
Executive Vice President, General Counsel,
Chief Compliance Officer and Secretary
Phone: +1 (805) 373-4605
Email: melanie.cibik@teledyne.com

Esther Quartarone
