### TELEDYNE TECHNOLOGIES REPORTS THIRD QUARTER RESULTS

THOUSAND OAKS, Calif. – October 25, 2023 – Teledyne Technologies Incorporated (NYSE:TDY)

- Record third quarter sales of \$1,402.5 million, an increase of 2.9% compared with last year
- Record third quarter GAAP operating margin of 18.8% and diluted earnings per share of \$4.15
- All-time record non-GAAP operating margin of 22.8% and diluted earnings per share of \$5.05
- Increasing full year 2023 GAAP earnings outlook to \$15.82 to \$15.96 diluted earnings per share, compared with the prior outlook of \$15.60 to \$15.88, and increasing full year non-GAAP earnings outlook to \$19.20 to \$19.30 diluted earnings per share, compared with the prior outlook of \$19.00 to \$19.20
- Consolidated Leverage Ratio improved to slightly below 2.0x
- Acquired Xena Networks on October 13, 2023

Teledyne today reported third quarter 2023 net sales of \$1,402.5 million, compared with net sales of \$1,363.6 million for the third quarter of 2022, an increase of 2.9%. Net income attributable to Teledyne was \$198.6 million (\$4.15 diluted earnings per share) for the third quarter of 2023, compared with \$178.3 million (\$3.74 diluted earnings per share) for the third quarter of 2022, an increase of 11.4%. The third quarter of 2023 included \$49.1 million of pretax acquired intangible asset amortization expense, \$5.8 million of pretax FLIR integration costs and \$1.0 million of acquisition related discrete income tax expense. Excluding these items, non-GAAP net income attributable to Teledyne for the third quarter of 2023 was \$241.9 million (\$5.05 diluted earnings per share). The third quarter of 2022 included \$48.9 million of pretax acquired intangible asset amortization expense. Excluding these items, non-GAAP net income attributable to Teledyne for the third quarter of 2022 was \$216.5 million (\$4.54 diluted earnings per share). Operating margin was 18.8% for the third quarter of 2023, compared with 18.0% for the third quarter of 2022. Excluding the non-GAAP items discussed above, non-GAAP operating margin for the third quarter of 2023 was 22.8%, compared with 21.6% for the third quarter of 2022.

"In the third quarter, we achieved record operating margin and earnings per share," said Robert Mehrabian, Chairman, President and Chief Executive Officer. "The results across Teledyne were once again driven by our balanced business portfolio. Our overall performance was led by growth in our marine, medical, aerospace and certain defense businesses, coupled with vigilant cost control. While sales increased year-over-year, revenue was impacted by a stronger U.S. dollar throughout the third quarter and some deterioration in certain end markets, such as industrial automation and laboratory instrumentation. Nevertheless, given our focus on operational excellence, operating margin increased sequentially and year-over-year in the Digital Imaging and Instrumentation segments, helping generate record earnings. We remain highly confident in our balanced and resilient mix of commercial and government businesses and our ability to acquire and integrate complementary businesses. We were pleased to have added Xena Networks to our test and measurement business, which also continued to perform very well in a challenging environment."

#### **Review of Operations**

Comparisons are with the third quarter of 2022, unless noted otherwise.

#### **Digital Imaging**

The Digital Imaging segment's third quarter 2023 net sales were \$775.8 million, compared with \$777.9 million, a decrease of 0.3%. Operating income was \$136.3 million for the third quarter of 2023, compared with \$133.7 million, an increase of 1.9%.

The third quarter of 2023 net sales included \$25.8 million in incremental sales from recent acquisitions, as well as greater sales of x-ray products, infrared imaging detectors and surveillance systems, offset by lower sales of unmanned ground systems for defense applications, micro-electro-mechanical systems ("MEMS"), commercial maritime products and industrial imaging cameras. The increase in operating income was primarily due to favorable product mix, partially offset by \$5.8 million of FLIR-related integration costs recorded in the third quarter of 2023. Acquired intangible amortization expense for the third quarter of 2023 was \$45.4 million compared with \$44.7 million.

#### Instrumentation

The Instrumentation segment's third quarter 2023 net sales were \$329.1 million, compared with \$306.4 million, an increase of 7.4%. Operating income was \$85.5 million for the third quarter of 2023, compared with \$71.1 million, an increase of 20.3%.

The third quarter of 2023 net sales increase resulted from higher sales across the marine instrumentation and test and measurement instrumentation product lines. Sales of marine instrumentation increased \$22.5 million and sales of test and measurement instrumentation increased \$2.0 million. Sales of environmental instrumentation decreased \$1.8 million. The increase in operating income primarily reflected the impact of higher sales and favorable product mix.

#### **Aerospace and Defense Electronics**

The Aerospace and Defense Electronics segment's third quarter 2023 net sales were \$183.3 million, compared with \$169.5 million, an increase of 8.1%. Operating income was \$49.4 million for the third quarter of 2023, compared with \$44.3 million, an increase of 11.5%.

The third quarter of 2023 net sales reflected higher sales of \$7.0 million for aerospace electronics and \$6.8 million for defense electronics. The increase in operating income primarily reflected the impact of higher sales.

#### **Engineered Systems**

The Engineered Systems segment's third quarter 2023 net sales were \$114.3 million, compared with \$109.8 million, an increase of 4.1%. Operating income was \$10.9 million for the third quarter of 2023, compared with \$11.9 million, a decrease of 8.4%.

The third quarter of 2023 net sales reflected higher sales of \$2.7 million for engineered products and \$1.8 million for energy systems. The decrease in operating income was primarily driven by program mix, with the third quarter of 2023 having a higher percentage of lower margin space program revenue.

#### **Additional Financial Information**

#### **Cash Flow**

Cash provided by operating activities was \$278.2 million for the third quarter of 2023 compared with \$268.9 million. Depreciation and amortization expense for the third quarter of 2023 was \$76.9 million compared with \$80.8 million. Stock-based compensation expense for the third quarter of 2023 was \$8.0 million compared with \$6.7 million.

Capital expenditures for the third quarter of 2023 were \$23.0 million compared with \$16.7 million. Teledyne received \$12.2 million from the exercise of stock options in the third quarter of 2023 compared with \$0.9 million.

As of October 1, 2023, net debt was \$2,735.5 million which is calculated as total debt of \$3,244.1 million, net of cash and cash equivalents of \$508.6 million. As of January 1, 2023, net debt was \$3,282.5 million and included total debt of \$3,920.6 million, net of cash and cash equivalents of \$638.1 million. During the first nine months of

2023, Teledyne repaid approximately \$680 million of debt, including \$300.0 million of debt that matured in April 2023 and \$370.0 million of floating rate debt under its term loan due May 2026 and under its credit facility. Teledyne also repurchased and retired \$10.0 million of its Fixed Rate Senior Notes due April 2031, recording a \$1.6 million non-cash gain on the extinguishment of this debt.

As of October 1, 2023, \$1,130.9 million was available under the \$1.15 billion credit facility, after reductions of \$19.1 million in outstanding letters of credit.

	 Third (	)uar	rter
Free Cash Flow	2023		2022
Cash provided by operating activities	\$ 278.2	\$	268.9
Capital expenditures for property, plant and equipment	(23.0)		(16.7)
Free cash flow	\$ 255.2	\$	252.2

#### Income Taxes

The effective tax rate for the third quarter of 2023 was 19.2%, compared with 23.0%. The third quarter of 2023 reflected net discrete income tax benefits of \$6.1 million compared with \$0.3 million. The third quarter of 2023 amount primarily related to income tax benefits related to stock-based accounting. Excluding the net discrete income tax items in both periods, the effective tax rates would have been 21.7% for the third quarter of 2023, compared with 23.1%.

#### Other

Corporate expense was \$17.8 million for the third quarter of 2023 compared with \$15.8 million, with the increase primarily related to higher professional fees. Non-service retirement benefit income was \$3.1 million for the third quarter of 2023 compared with \$2.9 million. Interest expense, net of interest income, was \$18.4 million for the third quarter of 2023 compared with \$22.0 million. The decrease related to reduced outstanding borrowings with lower weighted average interest rates compared to the third quarter of 2022.

#### Outlook

Based on its current outlook, the company's management believes that fourth quarter 2023 GAAP diluted earnings per share will be in the range of \$4.07 to \$4.21 and full year 2023 GAAP diluted earnings per share will be in the range of \$15.82 to \$15.96. The company's management further believes that fourth quarter 2023 non-GAAP diluted earnings per share will be in the range of \$4.95 to \$5.05 and full year 2023 non-GAAP diluted earnings per share will be in the range of \$19.20 to \$19.30. The non-GAAP outlook excludes acquired intangible asset amortization for all acquisitions, further FLIR integration costs and acquisition-related tax matters. The company's annual expected tax rate for 2023 is 22.1%, before discrete tax items.

#### **Use of Non-GAAP Financial Measures**

We report our financial results in accordance with generally accepted accounting principles in the United States ("GAAP"). We supplement the reporting of our financial results determined under GAAP with certain non-GAAP financial measures. The non-GAAP financial measures presented provides management, financial analysts, and investors with additional useful information in evaluating the performance of the company. The non-GAAP financial measures should be considered in addition to, and not as a substitute for, financial measures prepared in accordance with GAAP. Further details on reasons that we use non-GAAP financial measures, a reconciliation of these measures to the most directly comparable GAAP measures, and other information relating to these measures are included following our GAAP financial statements.

#### Forward-Looking Statements Cautionary Notice

This earnings release contains forward-looking statements, as defined in the Private Securities Litigation Reform Act of 1995, with respect to management's beliefs about the financial condition, results of operations, acquisitions and product synergies, integration costs, tax matters and businesses of Teledyne in the future. Forward-looking statements involve risks and uncertainties, are based on the current expectations of the management of Teledyne and are subject to uncertainty and changes in circumstances.

The forward-looking statements contained herein may include statements relating to stock-based compensation expense, tax rates, anticipated capital expenditures and product developments, and other strategic options. Forward-looking statements generally are accompanied by words such as "projects", "intends", "expects",

"anticipates", "targets", "estimates", "will" and words of similar import that convey the uncertainty of future events or outcomes. All statements made in this communication that are not historical in nature should be considered forward-looking. By its nature, forward-looking information is not a guarantee of future performance or results and involves risks and uncertainties because it relates to events and depends on circumstances that will occur in the future.

Actual results could differ materially from these forward-looking statements. Many factors could change anticipated results, including: ongoing challenges and uncertainties posed by the lingering COVID pandemic for businesses and governments around the world; changes in relevant tax and other laws; foreign currency exchange risks; rising interest rates; risks associated with indebtedness, as well as our ability to reduce indebtedness and the timing thereof; the impact of semiconductor and other supply chain shortages; higher inflation, including wage competition and higher shipping costs; labor shortages and competition for skilled personnel; the inability to develop and market new competitive products; inherent uncertainties involved in the estimates and judgments used in the preparation of financial statements and the providing of estimates of financial measures, in accordance with U.S. GAAP and related standards; disruptions in the global economy; the ongoing conflict in Israel and neighboring regions; the ongoing conflict between Russia and Ukraine, including the impact to energy prices and availability, especially in Europe; customer and supplier bankruptcies; changes in demand for products sold to the defense electronics, instrumentation, digital imaging, energy exploration and production, commercial aviation, semiconductor and communications markets; funding, continuation and award of government programs; cuts to defense spending resulting from existing and future deficit reduction measures or changes to U.S. and foreign government spending and budget priorities triggered by inflation, rising interest costs, and economic conditions; impacts from the United Kingdom's exit from the European Union; uncertainties related to the policies of the U.S. Presidential Administration; the imposition and expansion of, and responses to, trade sanctions and tariffs; the continuing review and resolution of FLIR's trade compliance and tax matters; escalating economic and diplomatic tension between China and the United States; threats to the security of our confidential and proprietary information, including cybersecurity threats; natural and man-made disasters, including those related to or intensified by climate change; and our ability to achieve emission reduction targets and decrease our carbon footprint. Lower oil and natural gas prices, as well as instability in the Middle East or other oil producing regions, and new regulations or restrictions relating to energy production, including those implemented in response to climate change, could further negatively affect our businesses that supply the oil and gas industry. Weakness in the commercial aerospace industry negatively affects the markets of our commercial aviation businesses. In addition, financial market fluctuations affect the value of the company's pension assets. Changes in the policies of U.S. and foreign governments, including economic sanctions, could result, over time, in reductions or realignment in defense or other government spending and further changes in programs in which the company participates.

While the company's growth strategy includes possible acquisitions, we cannot provide any assurance as to when, if or on what terms any acquisitions will be made. Acquisitions involve various inherent risks, such as, among others, our ability to integrate acquired businesses, retain key management and customers and achieve identified financial and operating synergies. There are additional risks associated with acquiring, owning and operating businesses internationally, including those arising from U.S. and foreign government policy changes or actions and exchange rate fluctuations.

Additional factors that could cause results to differ materially from those described above can be found in Teledyne's Annual Report on Form 10-K for the year ended January 1, 2023, as well as subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, all of which are on file with the SEC and available in the "Investors" section of Teledyne's website, teledyne.com, under the heading "Investor Information" and in other documents Teledyne files with the SEC.

All forward-looking statements speak only as of the date they are made and are based on information available at that time. Teledyne assumes no obligation to update forward-looking statements to reflect circumstances or events that occur after the date the forward-looking statements were made or to reflect the occurrence of unanticipated events except as required by federal securities laws. As forward-looking statements involve significant risks and uncertainties, caution should be exercised against placing undue reliance on such statements.

A live webcast of Teledyne's third quarter earnings conference call will be held at 11:00 a.m. (Eastern) on Wednesday, October 25, 2023. To access the call, go to www.teledyne.com/investors/events-and-presentations

approximately ten minutes before the scheduled start time. A replay will also be available for one month starting at 12:00 p.m. (Eastern) on Wednesday, October 25, 2023.

#### **Explanation of Non-GAAP Financial Measures**

We report our financial results in accordance with GAAP. However, management believes that, in order to more fully understand our short-term and long-term financial and operational trends, and to aid in comparability with our competitors, investors and financial analysts may wish to consider the impact of certain items resulting from our acquisitions which have an infrequent or non-recurring impact on operations or assist in understanding our operations pre-acquisition. Accordingly, we present non-GAAP financial measures as a supplement to the financial measures we present in accordance with GAAP. These non-GAAP financial measures provide management, investors and financial analysts with additional means to understand and evaluate the operating results and trends in our ongoing business by adjusting for certain expenses and other items. Management believes these non-GAAP financial measures also provide additional means of evaluating period-over-period operating performance. In addition, management understands that some investors and financial analysts find this information helpful in analyzing our financial and operational performance and comparing this performance to our peers and competitors. The company's 2023 diluted earnings per common share guidance is also presented on a non-GAAP basis.

The non-GAAP financial measures are not meant to be considered superior to, or a substitute for, our financial statements prepared in accordance with GAAP. There are material limitations associated with non-GAAP financial measures because they exclude charges that have an effect on our reported results and, therefore, should not be relied upon as the sole financial measures by which to evaluate our financial results. Management compensates and believes that investors should compensate for these limitations by viewing the non-GAAP financial measures in conjunction with the GAAP financial measures. In addition, the non-GAAP financial measures used by other companies. The non-GAAP financial measures are also used by our management to evaluate our operating performance and benchmark our results against our historical performance and the performance of our peers.

#### Our non-GAAP measures are as follows:

#### Non-GAAP income before income taxes, net income and diluted earnings per common share

These non-GAAP measures provided a supplemental view of income before taxes, net income, and diluted earnings per common share. These non-GAAP measures exclude certain FLIR acquisition integration-related costs, acquired intangible asset amortization, the remeasurement of deferred taxes related to acquired intangible assets due to changes in tax laws, and the tax benefits or costs related to the settlement or other resolution of the FLIR tax reserves. We also adjust for any post-acquisition interest on certain income tax reserves related to FLIR. We adjust for any income tax impact related to these items to take into account the tax treatment and related tax rate and changes in tax rates that apply to each adjustment in the applicable tax jurisdiction. Generally, this results in the tax impact at the U.S. marginal tax rate for certain adjustments, including the majority of amortization of intangible assets, whereas the tax impact of other adjustments, including transaction expenses, depend on whether the amounts are deductible in the respective tax jurisdictions and the applicable tax rates in those jurisdictions. We believe these measures provide investors and management with additional means to understand and evaluate the operating results of our business by adjusting for certain expenses and other items and present an alternative view of our performance compared to prior periods.

#### Non-GAAP operating income and operating margin

We define non-GAAP operating margin as non-GAAP operating income divided by net sales. These non-GAAP measures exclude certain FLIR acquisition integration-related costs and acquired intangible asset amortization. We believe these measures provide investors and management with additional means to understand and evaluate the operating results of our business by adjusting for certain expenses and other items and present an alternative view of our performance compared to prior periods.

#### Non-GAAP total debt and net debt

We define non-GAAP total debt as the sum of current portion of long-term debt and other debt and long-term debt. We define net debt as the difference between non-GAAP total debt less cash and cash equivalents. The company believes that this supplemental non-GAAP information is useful to assist investors and management in analyzing the company's liquidity.

#### Non-GAAP diluted earnings per common share outlook

These non-GAAP measures represent our earnings per common share outlook for the fourth quarter 2023 and total year 2023 on a fully diluted basis, excluding certain FLIR integration costs, acquired intangible asset amortization for all acquisitions and acquisition-related tax matters.

#### Non-GAAP cash provided by operations and free cash flow

We define free cash flow as cash provided by operating activities (a measure prescribed by GAAP) less capital expenditures for property, plant and equipment. We believe that this supplemental non-GAAP information is useful to assist management and the investment community in analyzing the company's ability to generate cash flow.

#### Non-GAAP line items used in tables

Management excludes the effect of each of the acquisition related items identified below to arrive at the applicable non-GAAP financial measure referenced in the tables for the reasons set forth below with respect to that item:

- <u>Acquired intangible asset amortization</u> We believe that excluding the amortization of acquired intangible assets, which primarily represents purchased technology and customer relationships, as well as purchase order and contract backlog, provides an alternative way for investors to compare our operations pre-acquisition to those post-acquisition and to those of our competitors that have pursued internal growth strategies. However, we note that companies that grow internally will incur costs to develop intangible assets that will be expensed in the period incurred, which may make a direct comparison more difficult.
- <u>FLIR integration costs</u> Included in our GAAP presentation of cost of sales and selling, general and administrative expenses are expenses incurred in connection with further integration-related costs related to the FLIR acquisition such as facility consolidation costs, facility lease impairments and employee separation costs. We exclude these costs from our non-GAAP measures because we believe it does not reflect our ongoing financial performance.
- <u>Acquisition-related tax matters</u> Included in our tax provision is post-acquisition interest on certain income tax reserves related to FLIR, as well as the tax benefits or costs related to the settlement or other resolution of the FLIR tax reserves. We exclude these impacts from our non-GAAP measures because we believe it does not reflect our ongoing financial performance.
