INVESTOR PRESENTATION | JANUARY 2026

## Cautionary Statement Regarding Forward Looking Statements

Teledyne's investor presentation contains forward-looking statements, as defined in the Private Securities Litigation Reform Act of 1995, with respect to management's beliefs about the financial condition, results of operations and businesses of Teledyne in the future. Forward-looking statements involve risks and uncertainties, are based on the current expectations of the management of Teledyne and are subject to uncertainty and changes in circumstances. Forward-looking statements generally are accompanied by words such as "projects", "intends", "expects", "anticipates", "targets", "estimates", "will" and words of similar import that convey the uncertainty of future events or outcomes. All statements made in this communication that are not historical in nature should be considered forward-looking. Actual results could differ materially from these forward-looking statements.

Many factors could change anticipated results, including: the impact of policies of the U.S. Presidential Administration, especially with respect to new and higher tariffs, cutbacks in the funding of government agencies and programs, and the scaling back of environmental and green energy policies; escalating economic and diplomatic tension between China and the United States, including a "trade war" resulting in higher tariffs and restrictions on sales of goods and services; reciprocal tariffs from other countries, especially from members of the European Union; U.S. Government shutdowns, which in the past have resulted in delays in anticipated contract awards, delayed payments of invoices and delays in the issuance of export and other licenses; the inability to develop and market new competitive products; changes in relevant tax and other laws; foreign currency exchange risks; rising interest rates; risks associated with indebtedness, as well as our ability to reduce indebtedness and the timing thereof; the impact of semiconductor and other supply chain shortages; higher inflation, including wage competition and higher shipping costs; labor shortages and competition for skilled personnel; inherent uncertainties involved in the estimates and judgments used in the preparation of financial statements and the providing of estimates of financial measures, in accordance with GAAP and related standards; disruptions in the global economy; global conflicts including the ongoing conflict between Russia and Ukraine; changes in demand for products sold to the defense electronics, instrumentation, digital imaging, energy exploration and production, commercial aviation, semiconductor and communications markets; funding, continuation and award of government programs; cuts to defense spending resulting from existing and future deficit reduction measures or changes to U.S. and foreign government spending and budget priorities triggered by inflation, and economic conditions; the imposition and expansion of, and responses to, trade sanctions and tariffs; the continuing review and resolution of FLIR's trade compliance and tax matters; threats to the security of our confidential and proprietary information, including cybersecurity threats; risks related to artificial intelligence; natural and man-made disasters; and our ability to achieve emission reduction targets and decrease our carbon footprint. Lower oil and natural gas prices, as well as instability in the Middle East, Latin America or other oil producing regions, and new regulations or restrictions relating to energy production could further negatively affect our businesses that supply the oil and gas industry. Weakness in the commercial aerospace industry negatively affects the markets of our commercial aviation businesses. Lower aircraft production rates at Boeing or Airbus could result in reduced sales of our commercial aerospace products. In addition, financial market fluctuations affect the value of the company's pension assets. Changes in the policies of U.S. and foreign governments, including economic sanctions or in regard to support for Ukraine, could result, over time, in reductions or realignment in defense or other government spending and further changes in programs in which the company participates.

While the company's growth strategy includes possible acquisitions, we cannot provide any assurance as to when, if or on what terms any acquisitions will be made. Acquisitions involve various inherent risks, such as, among others, our ability to integrate acquired businesses, retain key management and customers and achieve identified financial and operating synergies. There are additional risks associated with acquiring, owning and operating businesses internationally, including those arising from U.S. and foreign government policy changes or actions and exchange rate fluctuations.

Additional factors that could cause results to differ materially from those described above can be found in Teledyne's Annual Report on Form 10-K for the year ended December 29, 2024, subsequent Quarterly Reports on Form 10-Q, and in other documents, all of which are on file with the SEC and available in the "Investors" section of Teledyne's website, [teledyne.com](http://teledyne.com), under the heading "Investor Information."

All forward-looking statements speak only as of the date they are made and are based on information available at that time. Teledyne assumes no obligation to update forward-looking statements to reflect circumstances or events that occur after the date the forward-looking statements were made or to reflect the occurrence of unanticipated events except as required by federal securities laws. As forward-looking statements involve significant risks and uncertainties, caution should be exercised against placing undue reliance on such statements.

Distribute Information

Everywhereyoulook™

# Teledyne

- Global sensing and decision-support technology company
- Broad, balanced portfolio of highly engineered products
- Proven track record; hands-on management; consistent, predictable performance
- Further opportunities for margin improvement
- Compound growth in earnings and cash flow
- Established history of prudent capital deployment, successful integration of acquisitions

# Teledyne Markets; Global Presence

Sales of ~\$6.12 Billion<sup>(a)</sup>

**Markets<sup>(b)</sup>**

**Sales by Geography<sup>(b)</sup>**

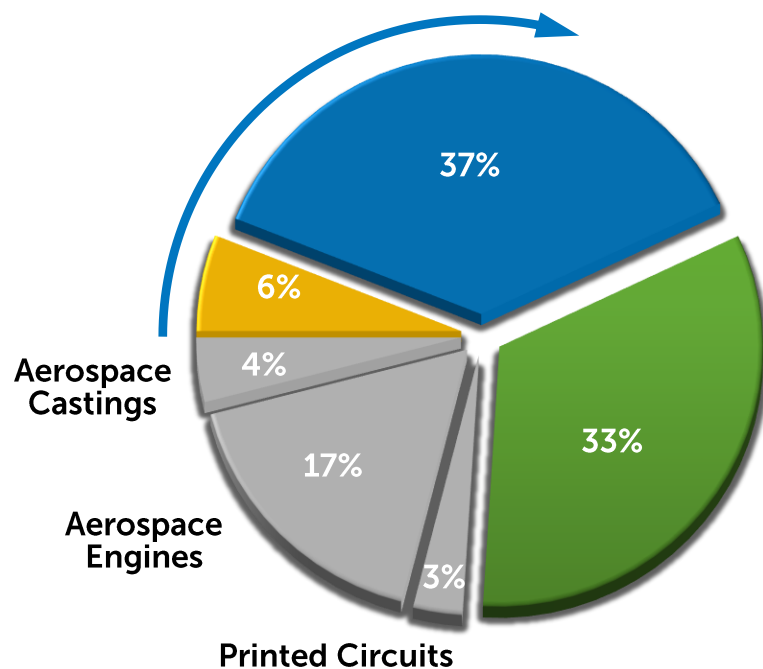

- (a) Represents full year 2025 revenue
- (b) Approximate sales percentage by end market and geography for the full year 2025
- (c) Includes Teledyne Marine Instrumentation for hydrographic survey, ocean science and other product lines
- (d) Includes Environmental Instrumentation and electronic Test & Measurement Instrumentation
- (e) Other includes commercial or foreign government sales of electronics for microwave and satellite communications, industrial interconnect systems, electronic components and other product lines

# Teledyne's Transformation

2000<sup>(a)</sup>

\$657 Million

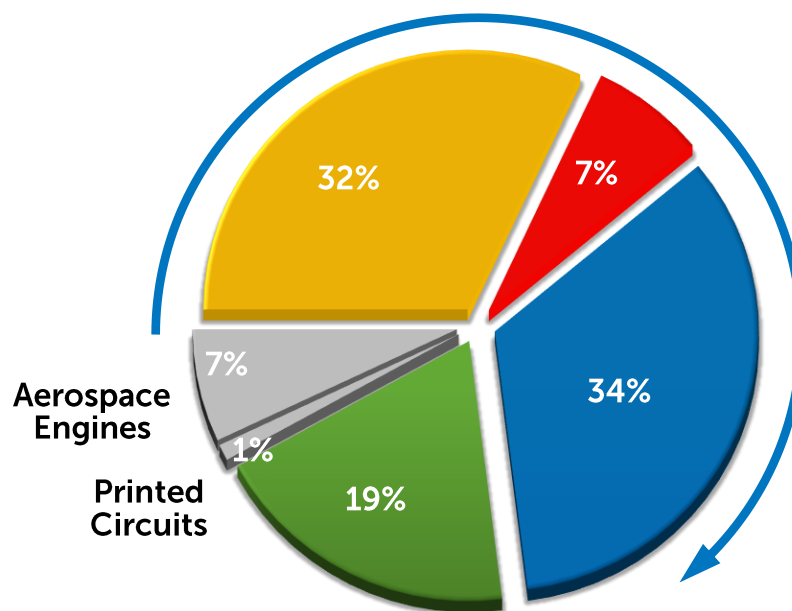

Instrumentation

Digital Imaging

2010<sup>(a)</sup>

\$1.64 Billion

Aerospace & Defense Electronics

Engineered Systems

2025

~\$6.12 Billion

Divested Operations

(a) Total sales values exclude discontinued operations

# Acquisition History

75 Acquisitions; \$12.8 Billion in Cumulative Consideration

# Continuous Improvement<sup>(a)</sup>

EBITDA Margin<sup>(c)</sup>

SG&A Expense<sup>(c)</sup>

International Sales (%)

- (a) 2009 – 2012 represent data from continuing operations
- (b) Represents gross margin as filed in historical SEC filings, which do not reflect ASU No. 2017-07: Improving the Presentation of Net Periodic Pension Cost, etc. for 2016 and prior years
- (c) See reconciliation of Non-GAAP financial measures

# Revenue History<sup>(a)</sup>

(\$ in millions)

(a) Excludes the former Aerospace Engines & Components segment, which was sold on April 19, 2011, in all years

# Continuous EPS Growth<sup>(a)</sup>

(\$ per share)

- (a) Represents total GAAP EPS for 2002 through 2008 and 2013 through 2022, and GAAP EPS from continuing operations for 2001 and 2009 through 2012
- (b) Non-GAAP EPS excludes pretax charges related to the acquisition of e2v, estimated after-tax charges related to the Tax Cuts and Jobs Act of 2017 and acquired intangible asset amortization
- (c) Non-GAAP EPS excludes acquired intangible asset amortization
- (d) Non-GAAP EPS excludes pretax charges related to the acquisition of FLIR and all acquired intangible asset amortization of \$389.3 million or \$(6.98) per share and acquisition-related foreign tax matter benefits of \$7.3 million or \$0.17 per share
- (e) Non-GAAP EPS excludes pretax gain related to the acquisition of FLIR and all acquired intangible asset amortization of \$197.7 million or \$(3.18) per share and acquisition-related foreign tax matter benefits of \$72.7 million or \$1.52 per share
- (f) Non-GAAP EPS excluding pretax charges related to the acquisition of FLIR and all acquired intangible asset amortization of \$205.5 million or \$(3.30) per share and acquisition-related foreign tax matter benefits of \$100.5 million or \$2.10 per share
- (g) Non-GAAP EPS excluding pretax charges related to the acquisition of FLIR and all acquired intangible asset amortization of \$206.4 million or \$(3.31) per share, non-cash trademark impairments of \$52.5 million or \$(0.84) per share and acquisition-related foreign tax matter benefits of \$100.5 million or \$1.63 per share
- (h) Non-GAAP EPS excluding pretax charges related to acquisitions and all acquired intangible asset amortization of \$230.2 million or \$(3.71) per share, and acquisition-related foreign tax matter benefits of \$28.3 million or \$0.60 per share

# Free Cash Flow

(\$ in millions)

- (a) Adjusted Free Cash Flow (a non-GAAP measure) represents Cash from Operating Activities less purchases of property, plant and equipment, and excludes voluntary pension contributions but includes proceeds pursuant to a 1031 like-kind exchange. In 2021, net income and adjusted free cash flow exclude FLIR acquisition charges
- (b) Non-GAAP 2021 net income excludes pretax charges related to the acquisition of FLIR and all acquired intangible asset amortization of \$389.3 million or \$(6.98) per share and acquisition-related foreign tax matter benefits of \$7.3 million or \$0.17 per share
- (c) Non-GAAP 2022 net income excludes pretax gain related to the acquisition of FLIR and all acquired intangible asset amortization of \$197.7 million or \$(3.18) per share and acquisition-related foreign tax matter benefits of \$72.7 million or \$1.52 per share
- (d) Non-GAAP EPS excluding pretax charges related to the acquisition of FLIR and all acquired intangible asset amortization of \$205.5 million or \$(3.30) per share and acquisition-related foreign tax matter benefits of \$100.5 million or \$2.10 per share
- (e) Non-GAAP EPS excluding pretax charges related to the acquisition of FLIR and all acquired intangible asset amortization of \$206.4 million or \$(3.31) per share, non-cash trademark impairments of \$52.5 million or \$(0.84) per share and acquisition-related foreign tax matter benefits of \$100.5 million or \$1.63 per share
- (f) Non-GAAP EPS excluding pretax charges related to the acquisition of FLIR and all acquired intangible asset amortization of \$230.2 million or \$(3.71) per share, and acquisition-related foreign tax matter benefits of \$28.3 million or \$0.60 per share

# Balance Sheet and Available Liquidity

(\$ in millions)

**Q4 2025**

Cash	\$ 352.4
Debt	2,475.4
Stockholders' Equity	<u>10,513.9</u>
Total Capitalization	\$ <u><u>12,989.3</u></u>

Available Liquidity <sup>(a)</sup>	\$ 1,523.4
Net Debt / Net Book Cap	16.8 %
Net Debt / EBITDA	1.4 x <sup>(b)</sup>

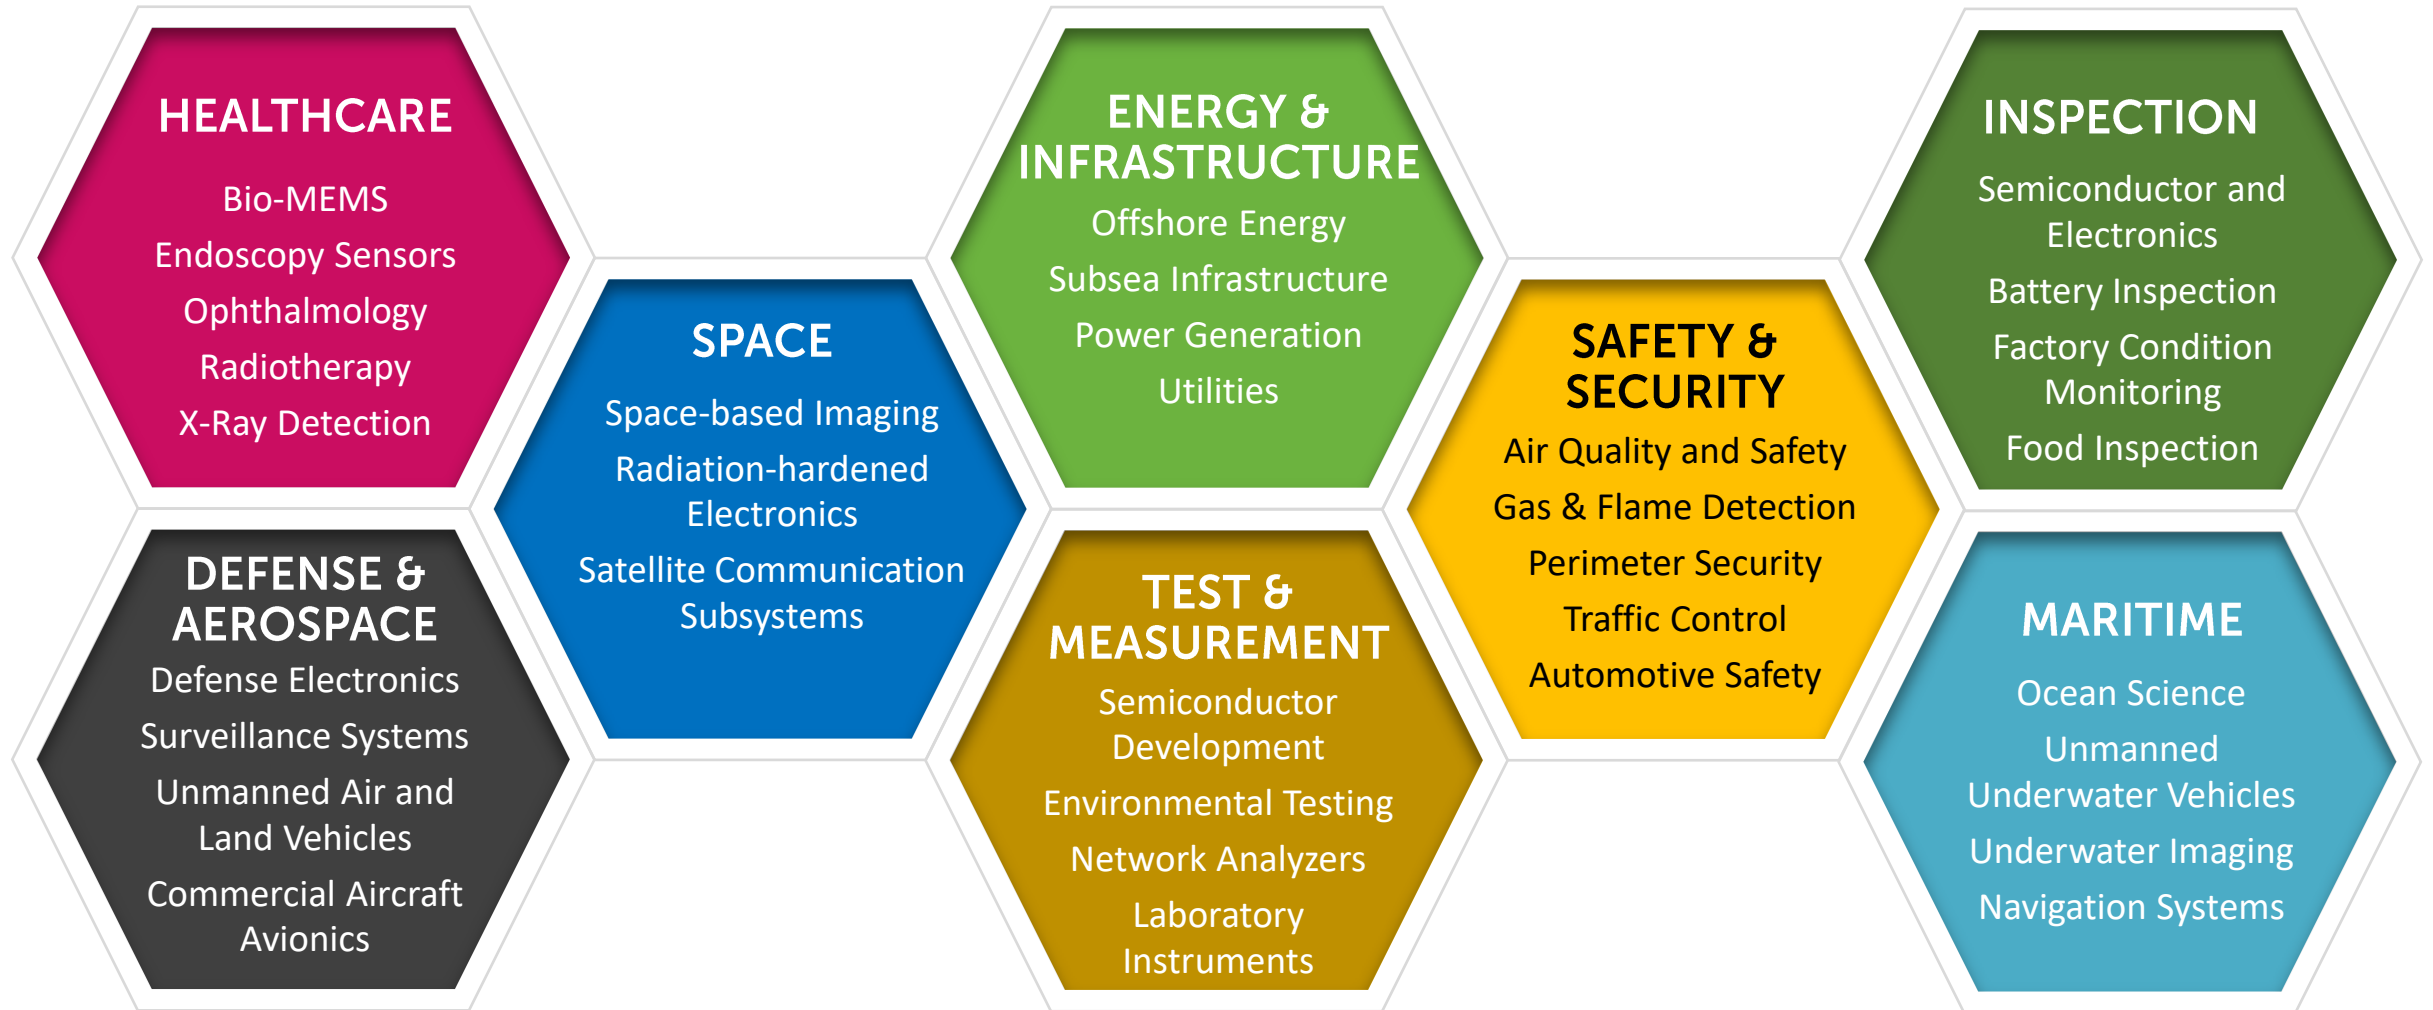

## Credit Ratings

Moody's	Baa1
S&P	BBB
Fitch	BBB

(a) Represents cash of \$352.4 million plus \$1,171.0 million of available borrowing capacity under Teledyne's \$1.20 billion credit facility as of December 28, 2025

(b) Consolidated Leverage Ratio is equal to Net Debt / EBITDA as defined in Teledyne's \$1.20 billion credit agreement. Value shown as of December 28, 2025

# End-Use Markets and Main Applications

# Defense & Aerospace

# Teledyne: Goal to Reduce Scope 1 and Scope 2 Combined Emissions, Divided by Sales, 40% from 2020 to 2040

\*2021, 2022, and 2023 emissions from businesses acquired are prorated to reflect the period following acquisition to align with acquired revenue.

# Teledyne Technologies Incorporated

## Explanation of Non-GAAP Financial Measures

We report our financial results in accordance with GAAP. However, management believes that, in order to more fully understand our short-term and long-term financial and operational trends, and to aid in comparability with our competitors, investors and financial analysts may wish to consider the impact of certain items resulting from our acquisitions which have an infrequent or non-recurring impact on operations or assist in understanding our operations pre-acquisition. Accordingly, we present non-GAAP financial measures as a supplement to the financial measures we present in accordance with GAAP. These non-GAAP financial measures provide management, investors and financial analysts with additional means to understand and evaluate the operating results and trends in our ongoing business by adjusting for certain expenses and other items. Management believes these non-GAAP financial measures also provide additional means of evaluating period-over-period operating performance. In addition, management understands that some investors and financial analysts find this information helpful in analyzing our financial and operational performance and comparing this performance to our peers and competitors. The company's 2023 diluted earnings per common share guidance is also presented on a non-GAAP basis.

The non-GAAP financial measures are not meant to be considered superior to, or a substitute for, our financial statements prepared in accordance with GAAP. There are material limitations associated with non-GAAP financial measures because they exclude charges that have an effect on our reported results and, therefore, should not be relied upon as the sole financial measures by which to evaluate our financial results. Management compensates and believes that investors should compensate for these limitations by viewing the non-GAAP financial measures in conjunction with the GAAP financial measures. In addition, the non-GAAP financial measures included in this earnings announcement may be different from, and therefore may not be comparable to, similar measures used by other companies. The non-GAAP financial measures are also used by our management to evaluate our operating performance and benchmark our results against our historical performance and the performance of our peers.

### **Our non-GAAP measures are as follows:**

#### **Non-GAAP Income before income taxes, net income and diluted earnings per common share**

These non-GAAP measures provided a supplemental view of income before taxes, net income, and diluted earnings per common share. These non-GAAP measures exclude certain FLIR acquisition integration-related costs, acquired intangible asset amortization, the remeasurement of deferred taxes related to acquired intangible assets due to changes in tax laws, and the tax benefits or costs related to the settlement or other resolution of the FLIR tax reserves. We also adjust for any post-acquisition interest on certain income tax reserves related to FLIR. We adjust for any income tax impact related to these items to take into account the tax treatment and related tax rate and changes in tax rates that apply to each adjustment in the applicable tax jurisdiction. Generally, this results in the tax impact at the U.S. marginal tax rate for certain adjustments, including the majority of amortization of intangible assets, whereas the tax impact of other adjustments, including transaction expenses, depend on whether the amounts are deductible in the respective tax jurisdictions and the applicable tax rates in those jurisdictions. We believe these measures provide investors and management with additional means to understand and evaluate the operating results of our business by adjusting for certain expenses and other items and present an alternative view of our performance compared to prior periods.

#### **Non-GAAP operating income and operating margin**

We define non-GAAP operating margin as non-GAAP operating income divided by net sales. These non-GAAP measures exclude certain FLIR acquisition integration-related costs and acquired intangible asset amortization. We believe these measures provide investors and management with additional means to understand and evaluate the operating results of our business by adjusting for certain expenses and other items and present an alternative view of our performance compared to prior periods.

#### **Non-GAAP Total debt and net debt**

We define non-GAAP total debt as the sum of current portion of long-term debt and other debt and long-term debt. We define net debt as the difference between non-GAAP total debt less cash and cash equivalents. The company believes that this supplemental non-GAAP information is useful to assist investors and management in analyzing the company's liquidity.

#### **Non-GAAP Diluted earnings per common share outlook**

These non-GAAP measures represent our earnings per common share outlook for the third quarter 2023 and total year 2023 on a fully diluted basis, excluding certain FLIR transaction and integration costs, acquired intangible asset amortization for all acquisitions and acquisition-related tax matters.

#### **Non-GAAP Free cash flow and adjusted free cash flow**

We define free cash flow as cash provided by operating activities (a measure prescribed by GAAP) less capital expenditures for property, plant and equipment. We believe that this supplemental non-GAAP information is useful to assist management and the investment community in analyzing the company's ability to generate cash flow.

## Teledyne Technologies Incorporated

### Reconciliation of Non-GAAP Financial Measures (cont...)

Management excludes the effect of each of the acquisition related items identified below to arrive at the applicable non-GAAP financial measure referenced in the previous tables for the reasons set forth below with respect to that item:

- Acquired intangible asset amortization – We believe that excluding the amortization of acquired intangible assets, which primarily represents purchased technology and customer relationships, as well as purchase order and contract backlog, provides an alternative way for investors to compare our operations preacquisition to those post-acquisition and to those of our competitors that have pursued internal growth strategies. However, we note that companies that grow internally will incur costs to develop intangible assets that will be expensed in the period incurred, which may make a direct comparison more difficult.
- Acquisition-related tax matters – Included in our tax provision is post-acquisition interest on certain income tax reserves related to FLIR, as well as the tax benefits or costs related to the settlement or other resolution of the FLIR tax reserves. We exclude those impacts from our non-GAAP measures because we believe it does not reflect our ongoing financial performance.
- Transaction and integration costs - Included in our GAAP presentation of cost of sales and selling, general and administrative expenses are substantial expenses (or benefits) incurred with acquisitions and primarily include legal, accounting and other professional fees as well as integration-related costs such as employee separation costs, facility consolidation costs and facility lease impairments. Employee separation costs include required change-in-control payments, cash settlement of employee and director stock awards, as well as other employee severance amounts. We exclude those costs from our non-GAAP measures because we believe they do not reflect our ongoing financial performance.
- Additional non-GAAP line items used in the table below can be found in Teledyne's Annual Report on Form 10-K for the year ended December 29, 2024, as well as subsequent Quarterly Reports on Form 10-Q.

## Teledyne Technologies Incorporated

### Reconciliation of Non-GAAP Financial Measures (cont...)

Management excludes the effect of each of the acquisition related items identified below to arrive at the applicable non-GAAP financial measure referenced in the previous tables for the reasons set forth below with respect to that item:

- Acquired intangible asset amortization – We believe that excluding the amortization of acquired intangible assets, which primarily represents purchased technology and customer relationships, as well as purchase order and contract backlog, provides an alternative way for investors to compare our operations preacquisition to those post-acquisition and to those of our competitors that have pursued internal growth strategies. However, we note that companies that grow internally will incur costs to develop intangible assets that will be expensed in the period incurred, which may make a direct comparison more difficult.
- Acquisition-related tax matters – Included in our tax provision is post-acquisition interest on certain income tax reserves related to FLIR, as well as the tax benefits or costs related to the settlement or other resolution of the FLIR tax reserves. We exclude those impacts from our non-GAAP measures because we believe it does not reflect our ongoing financial performance.
- Transaction and integration costs - Included in our GAAP presentation of cost of sales and selling, general and administrative expenses are substantial expenses (or benefits) incurred with acquisitions and primarily include legal, accounting and other professional fees as well as integration-related costs such as employee separation costs, facility consolidation costs and facility lease impairments. Employee separation costs include required change-in-control payments, cash settlement of employee and director stock awards, as well as other employee severance amounts. We exclude those costs from our non-GAAP measures because we believe they do not reflect our ongoing financial performance.
- Additional information regarding non-GAAP items used in the table below can be found in Teledyne's Annual Report for the year ended December 29, 2024, as well as subsequent earnings reports on Form 8-K.

### Reconciliation of GAAP to Non-GAAP financial measures (in millions, except per share data):
